Problem Release Development will use Rational's Summit/TM for process control and workflow management of the software design process. A purchase order for this product is in process. In the interim, evaluation copies of the tool can be used to initiate the software design process implementation.			
Proposed Solution Rational has agreed to provide evaluation licenses to ECS to be used on the new servers deimos, phobos and olympus. This product integrates into the Apex environment. There are 30 Apex licenses, there will be a corresponding Summit/TM license for each. The Summit/TM licenses will be effective through March 14, 1997.
